

What Should I do if my private well water tests above 10 mg/L nitrate?

Free Water Treatment System Program

Private well users in Dodge, Fillmore, Goodhue, Houston, Mower, Olmsted, Wabasha, & Winona Counties are eligible for a water treatment system.

The Program pays for:

- ☒ Full cost of a water treatment system installation at your kitchen tap
- ☒ Free water analysis to confirm proper functioning of unit after installation
- ☒ 1 year follow-up site visit by water treatment company
