

Have you tested your well for nitrate?
YOU MAY BE ELIGIBLE FOR A FREE WELL TEST KIT

The Minnesota Department of Health is offering free well test kits for eligible homes in eight southeast Minnesota counties.

Your household may be eligible if:

1. A private well is the main source of drinking water for the place you live,
2. The private well is in Dodge, Fillmore, Goodhue, Houston, Mower, Olmsted, Wabasha, or Winona counties.

If your household meets all requirements listed above and you are interested in a well test kit for coliform bacteria, nitrate, arsenic, lead, and manganese, use the link below (or the QR code) to sign up.
